After you click the link, click "Venus 2000", then "Pricing-Ordering" at the top of the page and select "New Customers" to view the live pricing. ***No personally identifiable information is needed to view these pages; If you decide to buy you will then enter your name, etc. after you calculate your order and choose shipping options.***

Standard UPS Ground shipping is \$15.00 within the Continental USA from our Illinois factory; Optional expedited delivery options are available.

We've highlighted the most popular order combination below. It has everything you'll need for years of satisfying pleasure. The system is constructed of the highest quality medical-grade components available, ensuring long lasting functionality and value.

The only aspect of the system that requires maintenance is the liner in the "Receiver". Once or twice a year you'll want to renew it. The highlighted "Package Offer" below includes enough spare liner for up to 3 renewals; additional liner is reasonably priced (see pricing below).

As always, we welcome your questions or comments: Call or text any day from 8am to 10pm CST 772-233-9424.
