

Following this explanation is a sample of the Pricing Page from the manufacturer's website. The pricing listed here is typical, but the manufacturer makes minor adjustments periodically. All pricing is in US Dollars. Please click-through for current real-time pricing: <https://www.sybian.com/cgi-bin/ssponsor.cgi?Ssp731>

After you click the link, click "Venus 2000", then "Pricing-Ordering" at the top of the page and select "New Customers" to view the live pricing. ***No personally identifiable information is needed to view these pages; If you decide to buy you will then enter your name, etc. after you calculate your order and choose shipping options.***

All orders are processed at our Illinois USA factory. Standard UPS Ground shipping is \$15.00 within the Continental USA; International orders are sent UPS Worldwide Expedited Service 4 Business Day Delivery, cost ranges from \$125.00 to \$275.00 depending on destination. Optional expedited delivery options are available. **Please Note** - We do not ship to Greece, Italy, Poland, Latvia, Luxembourg or Mexico. Persons living in these countries should talk to a friend in a neighboring country and have them take delivery.

We've highlighted the most popular order combination below. It has everything you'll need for years of satisfying pleasure. The system is constructed of the highest quality medical-grade components available, ensuring long lasting functionality and value. Each time you use it, the cost per "session" goes down!

The only aspect of the system that requires maintenance is the liner in the "Receiver". Once or twice a year you'll want to renew it. The highlighted "Package Offer" below includes enough spare liner for up to 3 renewals; additional liner is reasonably priced (see pricing below).

As always, we welcome your questions or comments. Call or text any day from 9am to 10pm USA Eastern Time Zone: 772-233-9424.
